Hi all,

Please find attached my comments and edits. Let me know if I need to clarify anything... or help with anything else! Point of note: I only looked at the grammatical side of this and clarity of the wording. I did not check the "science" or results.

Regards,
Ingeborg

All

We need to explain our data and why we think the fluorination process created PFAS. So I added a paragraph under Conclusions, in red for that. Please see if you agree and/or want to add anything else

I need this back before end of day today.

Ingeborg is added to this for a fresh new pair of eyes.

Thank you

Thuy
